

FIBERGLASS FISH TAPES

SAFE AND EASIER THAN STEEL

- Inside wiring in occupied conduit
- Round rod slides easily over wires, especially at bends
- Easy-grip canister design for more effective pushing and pulling
- Patented accessory kit mounts on canister for easy access
- Fish conduit as small as 1/2" inside diameter
- Will not kink like steel tapes
- Non-conductive

WEE BUDDY® FISH TAPE

WITH ACCESSORY KIT

- Large Flexible Spring Leader Tip
- Small Flexible Spring Leader Tip
- Two Pulling Eyes
- Two End Ferrules
- Emery Cloth
- Adhesive

ROUND FIBERGLASS NON-CONDUCTIVE ROD
with fiberglass core balance provides stiffness and flexibility to allow bends in all direction unlike steel
